						1	
Share of undergraduate, degree- /certificate-seeking students who are part-time	student	part_time_share	float	PPTUG_EF		IPEDS	Shown/used on consumer website; The proportion of degree/certificate-seeking undergraduates enrolled part time in the fall term, calculated from the IPEDS Fall Enrollment component. This metric does not apply during 2000-01, when degree/certificate-seeking status was not collected. It is calculated as the number of part-time, degree/certificate-seeking undergraduates divided by the total number of degree/certificate-seeking undergraduates. It includes non-first-time undergraduates. Proportions are expressed as decimals rounded to four decimal places, so, for example, 0.1234 equals 12.34 percent.
				_			
Share of undergraduate, degree- /certificate-seeking students who are part-time	student	part_time_share_2000	float	PPTUG_EF2		IPEDS	The proportion of all undergraduates enrolled part time in the fall term, calculated from the IPEDS Fall Enrollment component. This metric only applies during 2000-01, when degree/certificate-seeking status was not collected. It is calculated as the number of part-time undergraduates divided by the total number of undergraduates. It includes non-first-time undergraduates. Proportions are expressed as decimals rounded to four decimal places, so, for example, 0.1234 equals 12.34 percent.

							annual total cost of attendance (CostT4_A, CostT4_P), including tuition and fees, books and supplies, and living expenses, minus the average grant/scholarship aid. It is calculated for all full- time, first-time, degree/certificate-seeking undergraduates who receive Title IV aid. It is included in the IPEDS Student Financial Aid component. Separate metrics are calculated for public institutions and private institutions. For public institutions, this metric is limited to full- time, first-time, degree/certificate-seeking undergraduates who pay in-state tuition and receive Title IV aid. For private institutions, it includes all full-time, first-time, degree/certificate- seeking undergraduates who receive Title IV aid. The total cost of attendance depends on whether full-time, first-time, degree/certificate-seeking undergraduates live on campus, off campus (not with family), or off campus (with family). For academic-year institutions, net price represents an average of all programs and includes only full- time, first-time, degree/certificate-seeking undergraduates who first enrolled in the fall term. For ono-academic-year institutions (program or continuous enrollment), net price represents the

							(CostT4_A, CostT4_P), including tuition and fees,
							books and supplies, and living expenses, minus the
							average grant/scholarship aid, by detailed income
							category. It is calculated for all full-time, first-time,
							degree/certificate-seeking undergraduates who
							receive Title IV aid. It is included in the IPEDS
							Student Financial Aid component. Separate
							metrics are calculated for public institutions and
							private institutions for each of the following three
							aggregated income categories: \$0-\$48,000;
							\$48,001-\$75,000; \$75,001 or more. For public
							institutions, this metric is limited to full-time, first-
							time, degree/certificate-seeking undergraduates
							who pay in-state tuition and receive Title IV aid.
							For private institutions, it includes all full-time,
							first-time, degree/certificate-seeking
							undergraduates who receive Title IV aid. For
							academic-year institutions, net price represents an
							average of all programs and includes only full-
							time, first-time, degree/certificate-seeking
							undergraduates who first enrolled in the fall term.
							For non-academic-year institutions (program or
							continuous enrollment), net price represents the
							program with the largest enrollment at the
							institution and it includes full-time, first-time,

						The average annual total cost of attendance,
						including tuition and fees, books and supplies, and
						living expenses for all full-time, first-time,
						degree/certificate-seeking undergraduates who
						receive Title IV aid. It is calculated from values in
						the IPEDS Institutional Characteristics and Student
						Financial Aid components. Separate metrics are
						calculated for academic-year institutions and
						program-year institutions. For academic-year
						institutions, average cost of attendance represents
						an average of all programs and includes only full-
						time, first-time, degree/certificate-seeking
						undergraduates who first enrolled in the fall term.
						For non-academic-year institutions (program or
						continuous enrollment), average cost of
						attendance represents the program with the
						largest enrollment at the institution, and it
						includes full-time, first-time, degree/certificate-
						seeking undergraduates who first enrolled at any
						time during the academic year. For programs less
Average cost of attendance (academic						than 1 year in length (see LProgram), this
	ost	attendance.academic_year	integer	COSTT4_A	IPEDS	represents the cost for the full program.

							The proportion of full-time, first-time, degree/certificate-seeking undergraduates who completed a degree or certificate at the institution within 150 percent of normal time, calculated from the IPEDS Graduation Rates component. Separate metrics are calculated for 4-year institutions and less-than-4-year institutions. This metric is calculated as the number of full-time, first-time, degree/certificate-seeking undergraduates who completed a degree or certificate divided by the number of full-time, first-time, degree/certificate-seeking undergraduates in the corresponding completion rate cohort (D150_4, D150_14). For full-time, first-time, bachelor's degree-seeking undergraduates, 150 percent of normal time is typically 6 years, and for full-time, first-time, associate's degree-seeking undergraduates, it is typically 3 years. For full-time, first-time, certificate-seeking undergraduates, the normal time period varies by the length of the program (for example, 9 months for a certificate with a normal completion time of 6 months). Proportions are expressed as decimals rounded to
Completion rate for first-time, full-time							four decimal places, so, for example, 0.1234
students at four-year institutions (150%							equals 12.34 percent. Pooled figures include two

Separate metrics are calculated for 4-year institutions and less-than-4-year institutions. This metric is calculated as the number of full-time, first-time, degree/certificate-seeking undergraduates who completed a degree or certificate divided by the number of full-time, first-time, degree/certificate-seeking undergraduates in the corresponding completion rate cohort. For full-time, first-time, bachelor's degree-seeking undergraduates, 150 percent of normal time is typically 6 years, and for full-time, first-time, associate's degree-seeking undergraduates, the normal time period varies by the length of the program (for example, 9 months for a certificate with a normal completion time of 6 months). Race/ethnicity categories for completion rates have varied over time. Prior to the 2008-09 academic year, the categories were White non-

Completion rate for first-time, full-time bachelor's-degree-seeking students at four-year institutions (200% of expected time to completion)	mpletion	completion rate 4yr 200nt	float	C200 4	IPEDS	The proportion of full-time, first-time, degree/certificate-seeking undergraduates who completed a degree or certificate at the institution within 200 percent of normal time, calculated from the IPEDS 200 Percent Graduation Rates component. Separate metrics are calculated for 4-year institutions and less-than-4-year institutions. This metric is calculated as the number of full-time, first-time, degree/certificate-seeking undergraduates who completed a degree or certificate divided by the number of full-time, first-time, degree/certificate-seeking undergraduates in the corresponding completion rate cohort (D200_4, D200_14). For full-time, first-time, bachelor's degree-seeking undergraduates, 200 percent of normal time is typically 8 years, and for full-time, first-time, associate's degree-seeking undergraduates, the normal time period varies by the length of the program (for example, 12 months for a certificate with a normal completion time of 6 months). Proportions are expressed as decimals rounded to four decimal places, so, for example, 0.1234 equals 12.34 percent. Pooled figures include two cohorts of students.
Completion rate for first-time, full-time	mpletion o	:ompletion_rate_4yr_200nt	float	C200_4	IPEDS	cohorts of students.
students at less-than-four-year institutions (200% of expected time to	mpletion (float	C200 L4	IPEDS	libid
Adjusted cohort count for completion rate at four-year institutions (denominator of 200% completion rate)				D200_4	IPEDS	degree/certificate-seeking undergraduates used by the institution to calculate completion rate within 200 percent of normal time, included in the IPEDS 200 Percent Graduation Rates component. Separate metrics are calculated for 4-year institutions and less-than-4-year institutions. This metric is based on the number of full-time, first-time, degree/certificate-seeking undergraduates who initially enrolled in the fall term (for institutions that primarily follow an academic year calendar system) or any time during the academic year (for institutions that primarily follow a continuous enrollment or program-based calendar system). Institutions may exclude full-time, first-time, degree/certificate-seeking undergraduates who left the institution due to death, total and permanent disability, active military duty, service in the Peace Corps or other federal foreign aid program, or service on an official church mission (http://nces.ed.gov/ipeds/glossary/index.asp?sear chtype=term&keyword=adjusted+cohort). The entering class used in this metric depends on the level of institution (see ICLEVEL). Four-year institutions use full-time, first-time, bachelor's-degree-seeking undergraduates who started at the institution 8 years earlier. Less-than-4-year institutions use full-time, first-time,
Adjusted cohort count for completion			ı		1	1

First-time, full-time student retention							The proportion of full-time, first-time, degree/certificate-seeking undergraduates who were enrolled at the institution in the fall 1 year after starting at the institution, calculated from the IPEDS Fall Enrollment component. Separate metrics are calculated for 4-year institutions and less-than-4-year institutions. The retention rate is calculated as the number of full-time, first-time, degree/certificate-seeking undergraduates enrolled in the fall of the prior academic year that are enrolled in the fall term of the current academic year divided by the number of full-time, first-time, degree/certificate-seeking undergraduates enrolled in the fall of the prior academic year. For 4-year institutions, this metric is limited to full-time, first-time, bachelor's or quivalent degree-seeking undergraduate students. For less-than-4-year institutions, this metric applies to all full-time, first-time, degree/certificate-seeking undergraduate students. This metric is not available prior to the 2004-05 academic year. Proportions are expressed as decimals rounded to four decimal places, so, for
rate at four-year institutions	student	retention_rate.four_year.full_time	float	RET_FT4		IPEDS	example, 0.1234 equals 12.34 percent.
First-time, full-time student retention							
rate at less-than-four-year institutions	student	retention_rate.lt_four_year.full_time	float	RET_FTL4		IPEDS	ibid
							The proportion of part-time, first-time, degree/certificate-seeking undergraduates who were enrolled at the institution in the fall 1 year after starting at the institution, calculated from the IPEDS Fall Enrollment component. Separate metrics are calculated for 4-year institutions and less-than-4-year institutions. The retention rate is calculated as the number of part-time, first-time, degree/certificate-seeking undergraduates enrolled in the fall of the prior academic year that are enrolled in the fall term of the current academic year divided by the number of part-time, first-time, degree/certificate-seeking undergraduates enrolled in the fall of the prior academic year. For 4-year institutions, this metric is limited to part-time, first-time, bachelor's or quivalent degree-seeking undergraduate students. For less-than-4-year institutions, this metric applies to all part-time, first-time, degree/certificate-seeking undergraduate students. This metric is not available prior to the 2004-05 academic year. Proportions are expressed

Institution name aliases	school	alias	autocomplete	ALIAS		IPEDS	
							The proportion of full-time, first-time, degree/certificate-seeking undergraduates who completed a degree or certificate at the institution within 100 percent of normal time, calculated from the IPEDS Graduation Rates component. Separate metrics are calculated for 4-year institutions and less-than-4-year institutions. This metric is calculated as the number of full-time, first-time, undergraduates who completed a degree or certificate divided by the number of full-time, first-time, undergraduates in the corresponding completion rate cohort (D100_4, D100_14). For full-time, first-time, bachelor's degree-seeking undergraduates, 100 percent of normal time is typically 4 years, and for full-time, first-time, associate's degree-seeking undergraduates it is typically 2 years. For full-time, first-time, certificate-seeking undergraduates, the normal time period varies by the length of the program (for example, 6 months for a certificate with a normal completion time of 6 months).
Completion rate for first-time, full-time							Proportions are expressed as decimals rounded to
students at four-year institutions (100%		accordation rate for 100at	flant	C100 4		IDEDS	four decimal places, so, for example, 0.1234
of expected time to completion)	completion	completion_rate_4yr_100nt	float	C100_4		IPEDS	equals 12.34 percent.

						degree/certificate-seeking undergraduates used by
						the institution to calculate completion rate within
						100 percent of normal time, included in the IPEDS
						Graduation Rates component. Separate metrics
						are calculated for 4-year institutions and less-than-
						4-year institutions. This metric is based on the
						number of full-time, first-time, degree/certificate-
						seeking undergraduates who initially enrolled in
						the fall term (for institutions that primarily follow
						an academic year calendar system) or any time
						during the academic year (for institutions that
						primarily follow a continuous enrollment or
						program-based calendar system). Institutions may
						exclude full-time, first-time, degree/certificate-
						seeking undergraduates who left the institution
						due to death, total and permanent disability,
						active military duty, service in the Peace Corps or
						other federal foreign aid program, or service on an
						official church mission
						(http://nces.ed.gov/ipeds/glossary/index.asp?sear
						chtype=term&keyword=adjusted+cohort). The
						entering class used in this metric depends on the
						level of institution (see ICLEVEL). Four-year
						institutions use full-time, first-time,

For full-time, first-time, bachelor's degree-seeking undergraduates, 150 percent of normal time is 6 years, and for full-time, first-time, certificate-seeking undergraduates, the normal time period varies (for example, 9 months for a certificate with a normal completion time of 6 months). Proportions are expressed as decimals rounded to four decimal places, so, for example,
(denominator of 100% completion rate) Transfer rate for first-time, full-time students at four-year institutions (within	completion	completion_cohort_less_than_4yr_100nt transfer_rate.4yr.full_time	integer	D100_L4 TRANS_4	IPEDS	The proportion of full-time, first-time, degree/certificate-seeking undergraduates who transferred to another institution within 150 percent of normal time, calculated from the IPEDS Graduation Rates component. Separate metrics are calculated for 4-year institutions and less-than-4-year institutions. This metric is calculated as the number of full-time, first-time, degree/certificate-seeking undergraduates who completed a degree or certificate divided by the number of full-time, first-time, degree/certificate-seeking undergraduates in the corresponding completion rate cohort (D150_4, D150_14). For full-time, first-time, bachelor's degree-seeking undergraduates, 150 percent of normal time is 6 years, and for full-time, first-time, associate's degree-seeking undergraduates it is 3 years. For full-time, first-time, certificate-seeking undergraduates, the normal time period varies (for example, 9 months for a certificate with a normal completion time of 6 months). Proportions are expressed as decimals

							degree/certificate-seeking undergraduates used by
							the institution to calculate transfer rate within 150
							percent of normal time, included in the IPEDS
							Graduation Rates component. Separate metrics
							are calculated for 4-year institutions and less-than-
							4-year institutions. This metric is based on the
							number of full-time, first-time, degree/certificate-
							seeking undergraduates who initially enrolled in
							the fall term (for institutions that primarily follow
							an academic year calendar system) or any time
							during the academic year (for institutions that
							primarily follow a continuous enrollment or
							program-based calendar system). Institutions may
							exclude full-time, first-time, degree/certificate-
							seeking undergraduates who left the institution
							due to death, total and permanent disability,
							active military duty, service in the Peace Corps or
							other federal foreign aid program, or service on an
							official church mission
							(http://nces.ed.gov/ipeds/glossary/index.asp?sear
